

# SK 60/1

## High-quality small press

With its capacity and variability this press is suitable for requirements of direct sellers, bio-farmers, cattle breeders, producers of animal feed, manufacturers of cosmetics, universities etc.

**Actuation:** Angular gear 1,5 / 2,2 kW · 380 V · 50 Hz  
**Throughput of rape:** ca. 12 - 15 kg rape-seed per hour, ca. 4-5 kg oil per hour  
**Weight:** ca. 135 kg

**Standard equipment:** electric switchbox, overload protection, working hour meter

Optimized oil outflow with minimum residual grease content due to patented strainer discs.

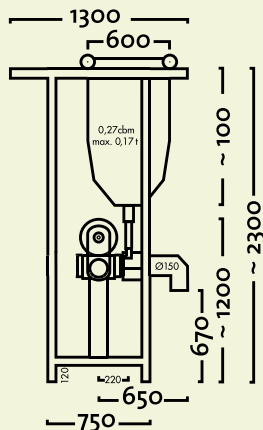

### OPTIONAL

**Underframe:** 750 x 850 mm Sfloor space, weight ca. 25 kg  
**Construction :** silo made of Trevira fabric (270l), total height: ca. 2300 mm

### ALTERNATIVELY

Due to the technical equipment of the SK 60/1 an extension to a twin press is possible at any time. Thus the seed throughput per hour can be doubled.
